

SciNote's Platinum Plan

SciNote's Platinum Plan offers Quality Assurance (QA) services needed in a GxP environment, including:

- Installation Qualification (IQ)
- Operational Qualification (OQ)
- Dedicated separate validation instance
- Controlled software updates and releases

Why use SciNote

Ensure data integrity to meet regulatory requirements

SciNote Platinum Plan supports electronic signatures, audit trails, signature notifications, and task locking – tools to help you meet electronic record compliance, such as FDA 21 CFR part 11.

Create a workflow to streamline your lab management

Keep track of tasks, inventory, and the latest activities in the lab. Standardize and template your processes to prevent errors and time wasted.

Document your progress, and plan for your future

Use SciNote's project-based structure to record your research activities, and plan for future projects and tasks so you can meet your targets.

Engage and collaborate through SciNote

Share projects, experiments, protocols, and data; post comments and tag team members to encourage collaboration.

Store your data securely in the cloud

Store data securely in the cloud, and access them from anywhere. Reduce the risk of lost data due to staff turnover or natural disasters.

Make your data Findable, Accessible, Interoperable, and Reusable (FAIR)

Maximize the impact of your research, prepare for new technologies (AI, ML, Big Data), and facilitate knowledge transfer or scale-up.

Integrate with other lab systems or software

Explore existing integrations with SciNote, or use RESTful API to integrate other lab equipment and processes with SciNote.

If it doesn't work out

Reduce the risk of losing your data if you do change platforms – you have the option to export your data in a readable and organized format.

Why choose SciNote

We stand by our commitment to you

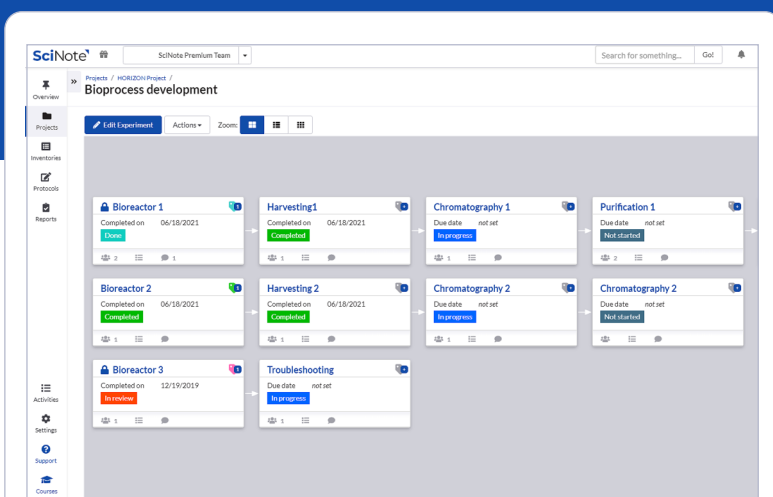

All plans include a 14-day free trial, top-rated customer support, setup and installation, ongoing maintenance and feature updates, and access to training materials and the knowledge base.

We understand your needs

The majority of our staff have a background in scientific research; we understand your pain points and what is important to you.

Your success is our contribution to science

Our mission is to help humanity benefit the most from science and to preserve research data for future generations. We want to help you be successful in the science you do.

What you get in the Platinum Plan

Team Collaboration	
Number of teams/workspaces	Unlimited
Cross team collaboration	✓
Customer Support	
Setup & installation	✓
Ongoing maintenance and updates	✓
Top-rated customer support	✓
Lab Management	
Unlimited tasks, experiments, projects, protocols	✓
Unlimited inventories	✓
Customizable experiment templates	✓
User Management	
4 preset permission user roles	✓
Custom user roles	✓
Report	
Report generator	✓
Download all	✓
Security	
Enforced 2-factor authentication (2FA)	✓
Enforced password policy	✓
IP whitelisting	✓
Single sign-on (SSO)	✓
Integrations	
Protocol.io integration	✓
Microsoft Office Integration	✓
Compliance	
Electronic signatures	✓
Audit trails	✓
Signature notifications	✓
Task locking	✓
Quality Assurance	
Installation Qualification (IQ)	✓
Operational Qualification (OQ)	✓
Dedicated separate validation instance	✓
Controlled software updates and releases	✓
Customization	
Organization URL and avatars	✓
